There are two children in the household, and the woman's pres-ent condition is such that she is unable to work outside of her own home. Tracy attained considerable notoriety a few years ago by marrying a woman early twice his age after she had surchased a wedding suit for him, an vercoat, and procured the marriage license, as well as paying the clergy-man's fee. Business Corporation Planned for the City.

Willimantic men are contemplating the forming of a stock company or a corporation to embark in the automo-bile business. It is the intention to secure a desirable plot of land and erect a substantial brick structure thereon to be used for the storage automobiles and as a salesroom. T

men plan to have a modern and up-to-date garage, capable of meeting all the demands that may be required of it. The men back of the proposition say that the automobile business has come to stay and that the auto can do more and better work them, a house do more and better work than a horse ever could. The fact that during the year Willimantic is visited by a large number of automobile parties is one reason for the construction of the big garage, as these could then be properly handled.
